

# Disability Access Services

## Bring more content to more people

### Closed Captioning for streaming video

- Transport deaf, hard-of-hearing, English-language learning viewers into the video experience by showing spoken content, ambient sounds, and music at the bottom of the screen

\$9 per minute of video without transcript provided

\$7.50 per minute of video with transcript

### Transcribing audio or video

- Allow consumers who are deaf, hard-of-hearing, English-language learners, or those without reliable internet access to engage with spoken content of your podcast or video

Starting @ \$1.50 per minute of recording

### Extra Services

\$.75 per minute for time stamps, speaker identification more than once per turn, or describing visuals from video footage

### Making your pdfs accessible (and limited website support)

- Bring the blind and low-vision communities in to access your content with alternative text, tagging, ordering, styles, and colors while improving your SEO

Starting at \$40 per hour for fully designed documents

### Copy editing for cognitively accessible (plain) language

- Invite readers with intellectual disabilities, learning disabilities, traumatic brain injuries, and fatigue from other disabilities to access and understand your written content easily

\$30 per hour (or per 1250 words)
